GrandPharm app

GrandPharm is an android application, provides users with detailed, accurate and reliable medical information and help users to find the closest pharmacy according to his/her current location. In addition to the ability to communicate with pharmacies and ask medical question directly.

Most popular features available in our app:

- Medical News:

Read the latest news available, perspectives, conference news, important journal articles, plus physician business news and tips.

- Drug Information:

Look up adult and pediatric drug dosing information in seconds, check drug interactions, possible adverse reactions, drug contraindications, effect of the drug on pregnancy and lactation, medicine's manufacturers and price.

- Communicate with pharmacy:
- the ability to communicate with the pharmacy directly and ask clinical questions.
- Find the closest pharmacy:

select or search for medicine and find the nearest pharmacy that sells the needed medicine in addition to find its location on map using GPS service, and the path to that pharmacy.
