1990-Present: Joined as staff Member at the MIS \Dept. at the College of IT then, and College of Engineering and IT now.

Research

Research Interests

- Currently I have my heart set on to explore the potentials of creating an e-Payment System using Digital Currency dedicated to NNU staff and student body, only.
- Organizational Development and Change Management, in this area of, research is directed to explore the failure OD projects. Why local business firms fail in realizing the required change that provides a competitive advantages in comparison with other OD projects in the Arab World in general and in the Gulf States in particular.
- Entrepreneur Learning, my interests lies in developing a TOT program that focuses on promoting entrepreneurship in learning and teaching, in tertiary and higher education in Palestine. This is a long term project that needs the support of the PNA and Ministry of Education and Higher Education HOME. The project will yield benefits if implemented in the formal education system.
- E-Enabled Instructional Strategies.

Research Groups

- BitCoin, Peer 2 Peer Digital Currency.
- The International Professor Project.
- The Organizational Development Network.
